**SEC. 249.49. TELEGRAPH HILL – NORTH BEACH RESIDENTIAL SPECIAL USE DISTRICT.**

**(a) Purposes.**

(+) To regulate off-street parking and the installation of garages in existing residential structures in order to ensure that they do not significantly increase the level of automobile traffic, increase pollution, or impair pedestrian use on narrow public rights-of-way in the District; and to prevent the ability to add parking from providing an incentive to convert existing residential buildings from rental buildings to tenancies-in-common.

(b) **Applicability.** The provisions of this Special Use District shall apply to the RH and RM zoned parcels within the area bounded by Bay Street on the north, The Embarcadero and Sansome

1 Street on the east, Broadway on the South, and Columbus Avenue on the west, as shown on Sectional  
2 Map SU01 of the Zoning Map.

3 (c) ~~(b)~~ **Controls.**

4 (1) **Number of Off-Street Residential Parking Spaces.** Up to three cars for each  
5 four dwelling units is a Permitted use; up to one car for each dwelling unit requires a  
6 Conditional use, subject to the criteria and procedures of Section 151.1(f); above one car for  
7 each dwelling unit is Not Permitted.

8 (2) **Installation of a Parking Garage.** Installation of a garage in an existing residential  
9 building of four or more units requires a mandatory discretionary review hearing by the  
10 Planning Commission; Section 311 notice is required for a building of less than four units. In  
11 approving installation of the garage, the Commission shall find that: (1) the proposed garage  
12 opening/addition of off-street parking will not cause the "removal" or "conversion of residential  
13 unit," as those terms are defined in Section 317 of this Code; (2) the proposed garage  
14 opening/addition of off-street parking will not substantially decrease the livability of a dwelling  
15 unit without increasing the floor area in a commensurate amount; (3) the building has not had  
16 two or more "no-fault" evictions, as defined in 37.9(a)(7)—(13) of the San Francisco  
17 Administrative Code, with each eviction associated with a separate unit(s) within the past ten  
18 years, (4) the garage would not front on a public right-of-way narrower than 41 feet, and (5)  
19 the proposed garage/addition of off-street parking installation is consistent with the Priority  
20 Policies of Section 101.1 of this Code.

21 Prior to the Planning Commission hearing, or prior to issuance of notification under  
22 Section 311(c)(2) of this Code, the Planning Department shall require a signed affidavit by the  
23 project sponsor attesting to (1), (2), and (3) above, which the Department shall independently  
24 verify. The Department shall also have made a determination that the project complies with  
25 (4) and (5) above.

1     **SEC. 309.1 PERMIT REVIEW IN DOWNTOWN RESIDENTIAL DISTRICTS.**

2             The provisions and procedures set forth in this Section shall govern the review of  
3 project authorization and building and site permit applications for the construction or  
4 substantial alteration of structures in Downtown Residential districts, the granting of  
5 exceptions to requirements of this Code, and the imposition of modifications necessary to  
6 achieve the objectives and policies of the General Plan and the purposes of this Code as  
7 provided for in Section ~~827~~ 825 and elsewhere. When any action authorized by this Section is  
8 taken, any determination with respect to the proposed project required or authorized pursuant  
9 to CEQA may also be considered.

10            (a) **Design Review.**

11            (1) In addition to the standard permit review process, the design of projects greater  
12 than 50,000 gross square feet or 85 feet in height shall be subject to design review and  
13 approval by Department staff. A detailed design review will be initiated by Department staff  
14 working with the project sponsor, at the time an application for 309.1 review or building permit  
15 is filed, and may take place in advance of filing a building permit application. This  
16 comprehensive review shall resolve issues related to the project's design, including the  
17 following:

18            (A) Overall building massing and scale;

19            (B) Architectural treatments, facade design and building materials;

20            (C) The design of lower floors, including building setback areas, townhouses, entries  
21 and parking and loading access;

22            (D) On sloping sites, parking provided above ground pursuant to Section ~~827(7)(A)~~  
23 825(b) (5)(7)(A);

24            (E) The provision of required open space, both on- and off-site;

1 (F) Streetscape and other public improvements, including tree planting, street  
2 furniture, and lighting;

3 (G) Circulation, including streets, alleys and mid-block pedestrian pathways

4 (H) Other changes necessary to bring a project into conformance with the *Rincon Hill*  
5 *Plan and other applicable* elements and area plans of the General Plan.

6 (2) If the project sponsor opposes project modifications and conditions recommended  
7 by the Director of Planning pursuant to the design review, the Director shall prepare a report  
8 of recommended modifications which shall be presented to the Planning Commission for a  
9 hearing pursuant to Subsection (e) and which shall be available to the public upon mail  
10 notification of said hearing.

11 (b) **Exceptions.**

12 (1) Exceptions to the following provisions of this Code may be granted as provided for  
13 below:

14 (A) Exceptions to the tower separation requirements of Section 270(e), pursuant to the  
15 criteria described in Section 270(e)(3) and 270(e)(4).

16 (B) Provision for exceeding an accessory residential parking ratio *principally permitted*  
17 *and up to the maximum permitted by Table 151.1 of 0.5 off-street car parking spaces per dwelling unit,*  
18 *up to a maximum of one car parking space per dwelling unit, pursuant to the criteria described in*  
19 *Section 151.1.*

20 (C) Exceptions to the lot coverage requirements of Section ~~827(d)(2)~~ 825(b)(2) for  
21 conversions of existing non-residential structures to residential use.

22 (D) Reductions in the dwelling unit exposure requirements of Section 140.

23 (E) Allowing parking access from Folsom Street, pursuant to ~~827(d)(7)~~ 827(a)(8)(A)(ii)  
24 and 155(r).

1 (F) Reduction of required on-site residential open space of 36 square feet per unit  
2 described in Section ~~827(e)(2)(A)~~ 827(a)(9) to create additional off-site publicly-accessible open  
3 space and superior building design.

4 (G) Design, location, and size of publicly-accessible open space as allowed by ~~Section~~  
5 ~~827(e)~~ 827(a)(9) and equivalence of proposed publicly-accessible open space in size and  
6 quality with required on-site open space.

7 (H) Modifications to the required upper story setback above a height of 45 feet on the  
8 north side of mid-block pedestrian pathways as allowed in Section ~~827(d)(4)(C)(i)~~  
9 827(a)(5)(C)(i).

10 (I) On development lots larger than ½-acre, minor deviations from the provisions for  
11 measurement of height in Sections 260 of the Code as otherwise provided in Section  
12 304(d)(6), in cases where the Planning Commission finds that such minor measurement  
13 modification is necessary for a project of outstanding overall design, complementary to the  
14 design of the surrounding area, and necessary to meet the intent and policies of the relevant  
15 area plan of the General Plan.

16 (c) **Hearing and Determination on Design Modifications and Applications for**  
17 **Exceptions.**

18 (1) **Hearing.** The Planning Commission shall hold a public hearing for all projects  
19 greater than 50,000 gross square feet, for all projects 85 feet in height or greater, and for  
20 applications that require exceptions as provided in Subsection (b).

21 (2) **Notice of Hearing.** Notice of such hearing shall be mailed not less than 10 days  
22 prior to the date of the hearing to the project applicant, to property owners within 300 feet of  
23 the project that is the subject of the application, using for this purpose the names and  
24 addresses as shown on the citywide Assessment Roll in the Assessor's Office, and to any  
25 person who has requested such notice. Such notice shall also be published at least once in

1 an official newspaper of general circulation at least 10 days prior to the date of the hearing.  
2 The notice shall state that the written recommendation of the Director of Planning regarding  
3 design modifications to the project and regarding any requests for exceptions is available for  
4 public review at the office of the Planning Department.

5 (3) **Director's Recommendations on Modifications and Exceptions.** At the  
6 hearing, the Director of Planning shall review for the Commission key urban design issues  
7 related to the project based on the design review pursuant to Subsection (a) and recommend  
8 to the Commission modifications to the project and conditions for approval as necessary. The  
9 Director shall also make recommendations to the Commission on any proposed exceptions  
10 pursuant to Subsection (b).

11 (4) **Decision and Imposition of Conditions.** The Commission may, after public  
12 hearing and, after making appropriate findings, approve, disapprove or approve subject to  
13 conditions, the project and any applications for exception. In addition to the requirements set  
14 forth in this Code, additional requirements, modifications, and limitations may be imposed on  
15 a proposed project, through the imposition of conditions, in order to achieve the objectives  
16 and policies of the General Plan or the purposes of this Code, including any modifications  
17 recommended by the Planning Director arising from design review. If pursuant to the  
18 provisions of this Section, the Planning Commission determines that conditions should be  
19 imposed on the approval of a building or site permit application or an application for  
20 exceptions to conform the building to the standards and intent of the Rincon Hill Plan and  
21 other elements of the General Plan and the applicant agrees to comply, the Commission may  
22 approve the application subject to those conditions.

23 (5) **Appeal.** The decision of the Planning Commission on the granting of any  
24 exceptions pursuant to Subsection (b) may be appealed to the Board of Appeals by any  
25 person aggrieved within 15 days after the date of the decision by filing a written notice of

1 appeal with that body, setting forth wherein it is alleged that there was an error in the  
2 interpretation of the provisions of this Code or abuse of discretion on the part of the Planning  
3 Commission.

4 (6) **Decision on Appeal.** Upon the hearing of an appeal, the Board of Appeals may,  
5 subject to the same limitations as are placed on the Planning Commission by Charter or by  
6 this Code, approve, disapprove or modify the decision appealed from the Planning  
7 Commission. If the determination of the Board differs from that of the Commission it shall, in a  
8 written decision, specify the error in interpretation or abuse of discretion on the part of the  
9 Commission and shall specify in the findings, as part of the written decision, the facts relied  
10 upon in arriving at its determination.

11 (7) **Discretionary Review.** No requests for discretionary review, other than through  
12 the procedures set forth in this Subsection, shall be accepted by the Planning Department or  
13 heard by the Planning Commission for permits in a DTR district.

14 (d) **Change of Conditions.** Authorization of a change in any condition previously  
15 imposed pursuant to this Section shall require an application for a change in conditions, which  
16 application shall be subject to the procedures set forth in this Section.

17 (e) **Unbuilt Tower Projects; Progress Requirement and Approval Revocation.**

18 (1) Construction of any development in an "R" bulk district containing a building taller  
19 than 110 feet (herein referred to as a "tower project") shall commence within 24 months of the  
20 date the tower project is first approved by the Planning Commission or Board of Appeals  
21 pursuant to the provisions of this Section. For tower projects that contain more than one tower  
22 structure, each tower structure shall be considered as a separate phase of development, with  
23 a requirement for commencement of construction for each subsequent tower phase of 18  
24 months beginning after the Certificate of Final Completion and Occupancy is issued on the  
25 previous tower phase. Failure to begin construction work within that period, or thereafter to

1 carry the development diligently to completion, shall be grounds for the Planning Commission  
2 to revoke approval of the tower project or phase. Neither the Department of Public Works nor  
3 the Board of ~~Permit~~ Appeals shall grant any extension of time inconsistent with the  
4 requirements of this Subsection (e)(1). For the purposes of this Subsection, "carry the  
5 development diligently to completion" shall mean continuous construction work without  
6 significant stoppage toward the completion of a tower structure beyond any site clearance,  
7 grading, excavation, or demolition of existing buildings on the project site.

8 (2) The Department of Building Inspection shall notify the Planning Department in  
9 writing of its approval for issuance and issuance of a site or building permit for any tower  
10 project and of the revocation, cancellation, or expiration of any such permit.

11 (3) At the first regularly scheduled Planning Commission meeting after the time period  
12 described in Subsection (e)(1) or this Subsection (e)(3) has elapsed for any tower project or  
13 tower phase, the Planning Commission shall hold a hearing requiring the tower project  
14 sponsor to report on the construction progress of the subject tower project or phase. If the  
15 Commission finds that the tower project or phase does not meet the progress requirement of  
16 Subsection (e)(1), the Commission may revoke or extend, up to a maximum of 12 months for  
17 each extension, the approvals for the tower project or phase.

18 (4) Appeals of Planning Commission decisions pursuant to this Subsection (e) shall be  
19 conducted pursuant to the procedures of Subsections (c)(5) and (c)(6).
