[Administrative Code - Surveillance Technology Policy - City Administrator - Security Camera Systems]

Ordinance approving a modified Surveillance Technology Policy for the City Administrator's Office's acquisition and use of security camera systems.

NOTE: Unchanged Code text and uncodified text are in plain Arial font.
Additions to Codes are in single-underline italics Times New Roman font.
Deletions to Codes are in strikethrough italics Times New Roman font.
Board amendment additions are in double-underlined Arial font.
Board amendment deletions are in strikethrough Arial font.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Background.

- (a) Terms used in this ordinance have the meaning set forth in Administrative Code Chapter 19B ("Chapter 19B").
- (b) Chapter 19B establishes requirements that City departments must follow before they may use or acquire new Surveillance Technology. Under Administrative Code Section 19B.2(a), a City department must obtain Board of Supervisors ("Board") approval by ordinance of a Surveillance Technology Policy before: (1) seeking funds for Surveillance Technology; (2) acquiring or borrowing new Surveillance Technology; (3) using new or existing Surveillance Technology for a purpose, in a manner, or in a location not specified in a Board-approved Surveillance Technology Policy; (4) entering into an agreement with a non-City entity to acquire, share, or otherwise use Surveillance Technology; or (5) entering into an oral or written agreement under which a non-City entity or individual regularly provides the department with data or information acquired through the entity's use of Surveillance Technology.

- (c) Under Administrative Code Section 19B.2(b), the Board may approve a Surveillance Technology Policy if: (1) the department seeking Board approval first submits to the Committee on Information Technology ("COIT") a Surveillance Impact Report for the Surveillance Technology to be acquired or used; (2) based on the Surveillance Impact Report, COIT develops a Surveillance Technology Policy for the Surveillance Technology to be acquired or used; and (3) at a public meeting at which COIT considers the Surveillance Technology Policy, COIT recommends that the Board adopt, adopt with modification, or decline to adopt the Surveillance Technology Policy for the Surveillance Technology to be acquired or used.
- (d) Under Administrative Code Section 19B.4, it is City policy that the Board of Supervisors will approve a Surveillance Technology Policy only if it determines that the benefits that the Surveillance Technology Policy authorizes outweigh its costs, that the Surveillance Technology Policy will safeguard civil liberties and civil rights, and that the uses and deployments of the Surveillance Technology under the Policy will not be based upon discriminatory or viewpoint-based factors or have a disparate impact on any community or Protected Class.

Section 2. Surveillance Technology Policy Ordinance for the Office of the City Administrator's Acquisition and Use of Security Cameras.

(a) Purpose. The Office of the City Administrator, including the divisions and departments under the City Administrator's control (collectively, "the City Administrator" or "the Department") seeks Board authorization under Section 19B.2(a) to acquire or use security cameras owned, leased, managed, or operated by the City at specified locations as follows:

(1) live monitoring; (2) recording of video and images; (3) reviewing camera footage in the event of an incident; and (4) providing video footage or images to law enforcement or other

authorized persons following an incident or upon request. Under the proposed Surveillance Technology Policy (the "Policy"), the City Administrator may use information collected from security cameras only for legally authorized purposes, and may not use that information to unlawfully discriminate against people based on race, ethnicity, political opinions, religious or philosophical beliefs, trade union membership, gender, gender identity, disability status, sexual orientation or activity, or genetic and/or biometric data. Additionally, the City Administrator may not use automated systems to scan footage and identify individuals based on any of the categories listed in the preceding sentence.

The Policy revises and replaces the City Administrator's current Surveillance

Technology Policy regarding security cameras, which the Board approved in Ordinance No.

116-21. That current policy applies only to cameras in and around properties under the jurisdiction of the Real Estate Division, and requires the Director of Real Estate to approve before security guards at the Department of Animal Care and Control monitor live feeds from a camera. The new Policy that the Board approves in this ordinance applies to cameras in and around properties under the jurisdiction of all divisions and departments under the City Administrator; allows certain Animal Care and Control staff to monitor live and review recorded footage without the approval from the Director of Real Estate; and expressly allows the acquisition of additional cameras in the future.

- (b) Surveillance Impact Report. The City Administrator and other departments submitted to COIT Surveillance Impact Reports for their use of security cameras. A copy of the Surveillance Impact Reports is in Board File No. 210559.
- (c) Public Hearings and COIT Recommendation. On November 7, 2023, COIT's Privacy and Surveillance Advisory Board held a public hearing to consider the proposed Policy, and on November 16, 2023, COIT held a public hearing to consider and approve the proposed Policy. On November 16, 2023, COIT voted to recommend the Policy to the Board

for approval. A copy of the proposed Policy is in Board File No. 231217, and is incorporated herein by reference.

(d) Findings. The Board hereby finds that the stated benefits of the City

Administrator's acquisition and use of security cameras outweigh the costs and risks of use of such Surveillance Technology; that the Policy will safeguard civil liberties and civil rights; and that the uses and deployments of security cameras, as set forth in the Policy, will not be based upon discriminatory or viewpoint-based factors or have a disparate impact on any community or a protected class.

Section 3. Approval of Policy.

The Board of Supervisors hereby approves the City Administrator's modified Surveillance Technology Policy for security cameras, described in Section 2 of this ordinance and referenced in Section 2(c).

Section 4. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.
