Section 1. Findings. The Board of Supervisors of the City and County of San Francisco hereby finds and declares as follows:

- (1) San Francisco has a proud tradition of safeguarding the unique character of its diverse neighborhoods and emphasizing community involvement in issues of neighborhood preservation.
- (2) The advent of wireless technologies has caused the proliferation of wireless communications services facilities throughout the City for provision of wireless services to the public. Such equipment includes but is not limited to microcells, which are small cell units that provide additional coverage and capacity where there are high numbers of users within urban areas. The antennas for microcells are often mounted at street level, typically on the external walls of existing structures, lampposts and other street fixtures.
- (3) Microcell installations are often visible to the public and can detract from the character and dignity of buildings and surrounding neighborhoods.

- (4) The City has received numerous complaints from neighborhood residents referring to wireless telecommunications services facilities as being unsightly, industrial-looking, and constituting urban blight. Neighborhood residents report that these facilities negatively impact the character and distinctive qualities of their neighborhoods.
- (5) Microcells and other wireless telecommunications services facilities have been permitted or allowed as "accessory uses" that have minimal design review and public notice requirements.
- (6) Planning Code Sections 311 and 312 provide a process for public review of building permit applications in R Districts and NC Districts, respectively, in order to determine compatibility of the proposals with the neighborhood and for providing notice to property owners and residents neighboring the site of the proposed project and to interested neighborhood organizations, so that concerns about a project may be identified and resolved during the review of the permit.
- (7) The public welfare, public convenience, and general prosperity of the community require amending the Planning Code to apply the public review processes of Sections 311 and 312 to wireless telecommunications services facilities.
- Section 2. Environmental Findings, General Plan Findings, and Other Required Findings.
- (a) The Planning Department has determined that the actions contemplated in this Ordinance are in compliance with the California Environmental Quality Act (California Public Resources Code sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. _______ and is incorporated herein by reference.
- (b) On April 19, 2007, the Planning Commission, in Resolution No.

 17420 approved and recommended for adoption by the Board this legislation and

(c) Pursuant to Planning Code Section 302, this Board of Supervisors finds that this legislation will serve the public necessity, convenience, and welfare for the reasons set forth in Planning Commission Resolution No. ________, and incorporates such reasons by reference herein.
