Section 2. The Planning Code is hereby amended by revising Section 188, to read as
follows:

SEC. 188. NONCOMPLYING STRUCTURES: ENLARGEMENTS, ALTERATIONS
AND RECONSTRUCTION.

(a) Within the limitations of this Article 1.7, and especially Sections 172 and 180
hereof, a noncomplying structure as defined in Section 180 may be enlarged, altered or
relocated, or undergo a change or intensification of use in conformity with the use limitations
of this Code, provided that with respect to such structure there is no increase in any
discrepancy, or any new discrepancy, at any level of the structure, between existing
conditions on the lot and the required standards for new construction set forth in this Code,
and provided the remaining requirements of this Code are met.

(b) A noncomplying structure that is damaged or destroyed by fire, or other calamity,
or by Act of God, or by the public enemy, may be restored to its former condition; provided
that such restoration is permitted by the Building Code, and is started within eighteen months
and diligently prosecuted to completion. Except as provided in Subsection (c) below, no
noncomplying structure that is voluntarily razed or required by law to be razed by the owner
thereof may thereafter be restored except in full conformity with the requirements of this Code.
For purposes of this Subsection (b), "started within eighteen months" shall mean that within eighteen months of the fire or other calamity or Act of God, the structure's owner shall have filed a building permit application to restore the structure to its former condition and use.

(c) In order that major life safety hazards in noncomplying structures may be eliminated as expeditiously as possible, a noncomplying structure constructed of unreinforced masonry that is inconsistent with the requirements of the UMB Seismic Retrofit Ordinance, Ordinance No. 227-92, may be demolished and reconstructed to the same level of noncompliance; provided that:

(1) The current requirements of the Building, Housing and Fire Codes and, as applicable, Planning Code are met, provided that the Zoning Administrator may, and is hereby empowered to, permit minor modifications to Planning Code requirements (which may include permitting an increase in the building envelope or a reduction in the number of parking spaces) to the extent necessary and required to bring the replacement building up to such applicable Code requirements and to allow replacement of the demolished building with a building which contains a comparable amount of square footage or the same number of residential units as that of the demolished building. The Zoning Administrator shall provide a written determination regarding such permitted Planning Code modifications; and

(2) Such restoration or reconstruction is started within one year after razing or other demolition work on the structure and diligently prosecuted to completion.

(d) Notwithstanding Subsection (a) of this Section, a noncomplying structure as defined in Section 180, may add nonusable space. "Nonusable space" is space not used for living, sleeping, eating, cooking or working. Public corridors, mechanical space, fire stairs and similar areas, are nonusable space. The enlargement must:

(1) Facilitate the adaptive reuse or the rehabilitation of a landmark site or contributory structure within a Historic District designated under Article 10 of this Code or a
significant structure or contributory structure within a Conservation District designated under Article 11 of this Code; and

(A) Be necessary to comply with Building Code, Fire Code or Planning Code requirements; or

(B) Enhance the life safety aspects of the building and/or mechanical, environmental control systems; or

(3) Application for enlargement of a non-complying structure under Subsection (d)(1) shall be considered as part of an application for a Certificate of Appropriateness under Article 10 or a Permit to Alter under Article 11 of this Code. Any application to enlarge a noncomplying structure under Article 11 shall be considered as a major alteration under Section 1111 of the Planning Code. Application to alter a noncomplying structure not designated an Article 11 significant or contributory building under Subsection (d)(2) shall be considered under the provisions of Section 309(b) of this Code. These applications shall be subject to the following additional criteria:

(C) That the structure provides an appropriate transition to adjacent properties, as necessary; and

(D) That the interior block open space formed by the rear yards of abutting properties will not be adversely affected; and

(E) That the access of light and air to abutting properties will not be significantly affected; and

(F) That public view corridors not be significantly affected; and

(4) The City Planning Commission, subject to the same application procedures of Section 188(d)(3) above, may grant an exception to the Planning Code requirements rather than expansion of the structure to accommodate the Planning Code requirements. The exception of the Planning Code requirement shall be subject to the criteria below:

(A) That the exception promote the health, safety and welfare of the public; and

(B) That the exception result in an increased benefit to the public and the adjacent properties over the increase in nonconformance; and
