3 **Resolution urging the California Public Utilities Commission to exempt all solar energy**
4 **systems from exit fees and pursue policies that promote solar and other renewable**
5 **energy sources.**

6

7 WHEREAS, The California Public Utilities Commission will soon determine if
8 customers that generate their own electricity using solar energy systems and other clean
9 renewable resources will be responsible for paying a share of the State's cost for long-term
10 electricity procurement contracts through exit fees; and

11 WHEREAS, Imposing exit fees on customers that choose solar energy systems will
12 significantly increase costs for customer-owned solar energy systems; and

13 WHEREAS, Exit fees would result in new and potentially significant barriers to further
14 development of clean, renewable generation, contrary to policies and programs established by
15 the California Legislature; and

16 WHEREAS, Solar energy helps California reduce air pollution, increase energy
17 independence, create jobs and fight global warming; and

18 WHEREAS, California should be doing everything possible to encourage rather than
19 penalize customers who seek to install solar energy systems; and

20 WHEREAS, California represents 60% of the nation's market for solar panels and plays
21 a critical role in the growth of solar energy; and

22 WHEREAS, The California Legislature recently enacted and Governor Gray Davis
23 signed a Renewable Portfolio Standard (RPS) bill (SB 1078) requiring California to generate
24 20 percent of its electricity from renewable energy no later than 2017; and
